Mental Faculties Grew Keener
as He Became Weaker
Physically.(BY ASSOCIATED PRESS.)
Baltimore, Maryland.—Cardinal Gibbons, archbishop of Baltimore and primate of the American Catholic hierarchy, died at the archiepiscopal residence here Thursday after a prolonged illness which mainly affected his heart. He was in his 87th year. The end came peacefully at 11:35 o'clock.

All of his faculties had been steady. Besides the cardinal's bed stood every member of his household. He had passed away the priests felt to their knees and began reciting prayers for the dead.

Telegrams were sent to Pope Benedict and to every prelate of the American hierarchy.

Special prayers for Cardinal Gibbons, who died Thursday morning, will be offered at the two Catholic churches here Thursday evening. The services at the St. Patrick's church will start at 7:30 and those at the St. Mary's at 7:45. Announcement of these services was made when the cardinal's death was announced.

CARDINAL JAMES GIBBONS

So. Wis. Industry
on Upward Trend;
Prospects Brighter

Recovery Will be Slow but Built on Sure Foundation, Declares General Manager Heath, of the Fairbanks-Morse Company.

(BY ASSOCIATED PRESS.)
Investigation among industrial concerns of import in southern Wisconsin clearly indicates that the manufacturers are taking the brakes off on the industrial retrenchment.

On the other hand the majority of officials in whose hands is the operation of the larger plants all express a clear opinion that the business in production is turning upward and that the tide has turned but they are "watching their step." There are a few exceptions such as the Bradley company in Delavan and one motor company in Kenosha for in these two concerns there is a high production schedule.

Fairbanks-Morse Planning.
A comprehensive explanation of the present industrial and business condition was given by W. C. Heath, general manager of the Fairbanks-Morse company, the largest industrial concern in southern Wisconsin.

In February the factory practically closed. The other companies in Beloit retrenched either to the same extent or at least to cut down material in their production schedule and force.

The Fairbanks was not long idle. They waited until the tide reached the bottom and turned upward and then increased their workmen until now about 750 are being employed.

Not Afraid of Future.
That the Fairbanks-Morse company is not afraid of the future is indicated by the continuation of the building of the largest foundry in the middle west—and one of the largest in the world. The Sanson foundry dwindled in size as compared to the new Beloit building. The word "big" does not begin to describe the gigantic proportions of the new building alone.

The construction work is carried on by a force of 250 men. It is expected that the new building will be completed by June 1.

(Continued on Page 5.)

MATHESON DRY BILL
HITS SENATE SNAG,
HELD UP BY WETSMEASURE TO BE HELD
OVER UNTIL NEXT
WEEK FOR SUB-
STITUTE.ISSUE IS DRAWN
Anti-Saloon Leaders Say Any
Move for Amendment
Will be Defeated.(BY ASSOCIATED PRESS.)
Madison.—The Matheson dry bill struck a serious snag when it reached the senate state affairs committee Wednesday afternoon. The committee, however, before the committee, who determined to hold the measure over until next week, when a substitute amendment will be drawn for submission to the upper house.

The substitute will call for local application of the Volstead act, with provisions of that bill embodied in the Wisconsin law without change or amendment. Committee members have practically decided not to patch the Matheson proposal with a score of amendments, but rather to draw up a new bill.

The Matheson bill, as it stands, and will not attempt to force a substitute, or to adopt any other than the accepted amendment.

Committee members were impressed by an explanation of the workings of the Matheson bill by W. Stanley Smith, prohibition commissioner, who suggested at least 25 amendments in order to provide a more complete bill.

He says that his powers are not clearly defined in the measure as it now stands.

Not to Be Accepted.
His suggestion was not accepted, according to the Anti-Saloon league leaders, who point out that the provisions referred to apply only to the situation, are far more complete than the Volstead act, and leave the interpretation to the attorney general for decision.

The Wisconsin brewers' association offered an amendment which would open the way for people of the state to obtain beer for medicinal purposes should the Matheson bill be adopted and federal prohibition upheld.

Recent decision of former Attorney General Palmer.

Put in "Spurious."
They suggest that the section governing the issuance of licenses be made to read that "not more than a pint of spurious liquor to be taken internally shall be prescribed for use by the same person within any period of ten days," adding the word "spurious" so that the amount of beer to be prescribed would not be limited.

Unless the dry members of the upper house are able to force the issue and pass the Matheson bill through with addition of only the Cook amendment, removing the clauses dealing with testimony, the whole fight will be thrown back to the legislature, as far from settlement as ever.

Freak Egg Has Another
Perfect Egg Inside It
Milwaukee.—A freak egg laid by one of the hens in the flock of Michael Warner, Mayor Hoan's bodyguard, had inside of it a second perfect egg enclosed in another shell.

Mr. Warner said today. The outside egg measured 6 1/2 by 7 1/2 inches in circumference and weighed 5 1/2 ounces. When broken an ordinary perfect egg was found inside the outer shell.

Easter to Be Observed
at Ex-Kaiser's Castle
Doorn.—Easter will be celebrated in the castle of Emperor William of Germany. Former Crown Prince Frederick William is expected to arrive here Thursday to stay with his parents until after the feast days.

The Rev. Dr. Ernest von Dryander, former court chaplain in Berlin, has arrived to conduct the Lord's supper. Pastor Weiss, who frequently preaches in the castle, also will be present. The condition of former Empress Victoria remains unchanged.

Netherlands to Be
Assured of Having King
The Hague.—The government introduced in parliament Thursday a bill for revision of the constitution, under the terms of which the people would elect a king should the queen leave no royal descendant and there be no male descendants of the last king. In introducing the bill, the government takes the standpoint that the Netherlands should remain a monarchy and not revert in any circumstances to a republican form of government.The Gazette Travel Bureau
Will Help You.
The Gazette keeps for the use of people who wish to travel the complete railroad guide corrected monthly and always available for the use of the public.

If you wish to go anywhere, either for pleasure or business, the Gazette Travel Bureau will help you with routes and to plan the trip.

Allies Warn
Germany She
Must Pay Up

(BY ASSOCIATED PRESS.)

Paris.—The German government was notified by the allied reparations commission Thursday that the total amount of 20,000,000,000 gold marks due under article 235 of the peace treaty must be paid by May 1 or additional penalties will be inflicted upon Germany.

STRIKERS RIOT AT
GREEN BAY MILLPolice Reserves Called to Dis-
perse Mobs Attacking
Workers.

Green Bay.—Rioting occurred at the Northern Paper Mills here late Wednesday, where about 500 employees have been on strike since March 14. The strikers are alleged to have attacked more than a score of men employed at the mill and beaten them severely. The strikers are then said to have stoned automobiles carrying strike breakers to the mills and injured several more persons. Policemen on duty at the mill were unable to cope with the situation and reserves had to be called out to disperse the crowd.

Several hundred men and women are now employed at the mill in place of the 500 employees who walked out in protest against the proposed wage reduction of 20 per cent.

Chicago.—A man hunt unequalled in the history of the police department here was under way Thursday in search of Thomas O'Connor who shot and killed Detective Sergeant Patrick O'Neil as the latter with four other policemen was starting a search for O'Connor at his brother-in-law's home. Chief of Police Fitzmorris took personal charge of the man hunt and 200 motorcycle police

were ordered out to seek O'Connor who was sought in connection with the shooting of one of his former companions.

O'Neil was shot while watching the rear door of the home of O'Connor's brother-in-law, Wm. Foley.

O'Connor had forfeited his bond on a charge in connection with the shooting of James Charlin, a year ago.

Working Agreements on Indi-
vidual Rules Said to
be Costly.(BY ASSOCIATED PRESS.)
Chicago.—Negotiating rules and working agreements on each individual railroad as proposed by the railway executives would cost the railroad workers more than \$5,000,000 and require the services of more than 5,000 men, it was stated before the railroad labor board Thursday by J. M. Jewell, president of the railway employees' department of the American Federation of Labor, in presenting the labor side of the controversy over national rules and agreements.Eliminate by Cooperation.
"Much of this enormous expense on both railroad management and railroad labor, together with the consumption of valuable time on highly skilled and essential railroad officials and railroad employees, should be eliminated by cooperation between railroad management and the recognized railroad labor organizations through the creation of a conference committee authorized to represent on the one hand railroad management and on the other railroad employees of their particular craft," he said.

He cited figures to show that 55 per cent of the 155,770 railroad shop employees of class one carriers are members of their respective craft or-

Communist Riots
Spread as Rebels
Kill and DestroyLarge Sections of Industrial Regions Actually
in Hands of Insurgents; Anarchy Reigns
at Hetstedt, Hamburg, Center of
Attack.(BULLETIN, 2:30 P. M.)
Berlin.—Order has been restored in Hamburg and the communists have been ejected from the shipyards which they had occupied.(By Associated Press)
London.—Communist disorders in central Germany are increasing and large sections of industrial regions are actually in the hands of the insurgents, says an Exchange Telegraph company dispatch from Amsterdam which quotes telephonic advices from Berlin during the night.

Reports from Saxony are that more buildings have been damaged by dynamite in various towns and at Mansfeld prisons have been opened and their inmates liberated. Complete anarchy is declared to reign at Hetstedt where all banks have been raided and from which the population is fleeing in a panic.

An account of the troubles at Hamburg says that more than 50 communists and police are reported to have been killed in the fighting Wednesday night at Heiligengeist field in the Altona section of Hamburg, where the police were defeated at Steinwarder Island in the free harbor territory, after a fierce battle.

Other reports stated that the communists were calling on workers to fight behind barricades and the people were fortifying their homes.

Financed by Soviet.
The communist revolt in Germany, financed by the Soviet Union, is spreading throughout the industrial districts of middle Germany, threatening the great German, Polish, Danish and other powers, says a Central News dispatch from Berlin, Thursday.

Strong police forces have been dispatched to quell the disorders in various cities and towns in Prussian Saxony and in Hamburg Wednesday. The trouble in Prussian Saxony seemed to center about the Mansfeld district and other towns, the message reports.

Efforts of the authorities, adds the dispatch, have only resulted in the communists strengthening their positions.

DISORDERS MARKED BY
GREAT PROPERTY DAMAGE
Berlin.—Great property damage and the loss of upwards of a score of lives marked communist disorders in various cities and towns in Prussian Saxony and in Hamburg Wednesday. The trouble in Prussian Saxony seemed to center about the Mansfeld district and other towns, the message reports.

Efforts of the authorities, adds the dispatch, have only resulted in the communists strengthening their positions.

Violence and Anarchy Reign.
Stories of violence, robbery and virtual anarchy continued to arrive Wednesday night from this section. Town halls at Plauen and Rodewitz were destroyed and county buildings at Leipzig and Freiburg were damaged, one person being injured at Freiburg. The county court building in Dresden was damaged by an explosion and three persons were injured. A similar attempt against the town hall at Auerbach was frustrated by police capturing a man carrying a bag of explosives.Two Banks Robbed.
A party of armed men riding in a motor lorry attacked two savings banks in Mansfeld and secured about 200,000 marks from the institutions. The savings bank at Rodewitz was robbed and strikers in that town compelled the Helbra Anzeiger to suspend publication.

A large crowd surrounded the police barracks at Hetstedt and demanded the surrender of arms stored there.

16 ARE KILLED IN
RIOTS AT HAMBURG
Hamburg, Germany.—Fifteen civilians and one policeman were killed and 16 persons were wounded in riots here late Wednesday afternoon.

The mob attempted to break the police cordon about the Volcan ship yards and disarmed the police. The police ordered the crowd to disperse and when this order was ignored, the officers opened fire and threw hand grenades into the mob.

The Helms and Voss shipyards, about which there was considerable fighting Wednesday, have been closed by the management.

Crowd Tries to Hold Meeting.
Communist leaders tried to hold a mass demonstration in Heiligengeist field in the Altona section of the city, but were unable to obtain possession of the field as the police had erected a barbed wire entanglement around it and had stationed armored cars at strategic points. The crowd, following its attempt to hold a meeting, stormed the armored cars. Street car service was virtually suspended during the night, and some streets have been barred.Workers Called to Arms
The Communist Volks Zeitung of this city has called upon workers to arm themselves.

Shops at Heiligengeist are declared to have been looted by the mob.

THE WEATHER
FOR WISCONSIN
Cloudy and unsettled tonight; Friday generally fair; not much change in temperature.Man Hunt in Chicago Is
Unequalled in History

Chicago.—A man hunt unequalled in the history of the police department here was under way Thursday in search of Thomas O'Connor who shot and killed Detective Sergeant Patrick O'Neil as the latter with four other policemen was starting a search for O'Connor at his brother-in-law's home. Chief of Police Fitzmorris took personal charge of the man hunt and 200 motorcycle police

were ordered out to seek O'Connor who was sought in connection with the shooting of one of his former companions.

O'Neil was shot while watching the rear door of the home of O'Connor's brother-in-law, Wm. Foley.

O'Connor had forfeited his bond on a charge in connection with the shooting of James Charlin, a year ago.

Mrs. Leeds Is Stillman's Pet

Mrs. Florence H. Leeds.

New York.—Mrs. Florence H. Leeds, a beautiful, light-haired young woman of the stage, has been revealed as the close associate of James A. Stillman, multimillionaire banker, who is suing his wife for divorce. Stillman charges his wife is the mother of a son whose father is Fred Beauvais, French-Canadian guide. Mrs. Stillman charges her husband is the father of a son born to "Mrs. Leeds."

OLDEST INMATE OF
I. O. O. F. HOME DIES

Green Bay.—Daniel Webster Carr, 93, oldest inmate of the Odd Fellows home here, died Thursday morning.

AT WASHINGTON

The average American consumes twice as much milk as former generations, according to the department of agriculture.

Representatives of the bureau of markets accompany shipment of apples in the export trade in an effort to cut down loss by improper packing, incorrect handling and unfavorable transportation conditions.

NEW EVENTS ARE
TOLD IN GAZETTE
PHOTO SERVICE

You may have seen those large and remarkably striking photographs of news events in the Gazette or in some other place of business both in Janesville and other towns.

Have you ever stopped to consider that all over the world there are scattered about men who do nothing else than to take pictures of the leading and important events of the world and that they are duplicated and used as the Gazette uses them to inform the world? The Elliott Service company which has supplied these photographs to the Gazette has recently installed a great camera laboratory and has the use of the photos made by the service.

This is one of the features of the Gazette that while not appearing in the columns of the paper, is appreciated by the public as it graphically impresses upon the mind the events more than with the event ever more than the fleeting glimpse allowed in the movies.

For the Gazette readers the illustrated service which constantly appears in its columns, forms one of the attractive features of the paper. No great event is without its proper illustration. Pictures are as necessary as type in these modern days of newspaper-making and Gazette readers are fortunate in having access to the best in that line.

SPRING PLOWING RUSHED IN COUNTY

Some Have Planted Wheat and Oats—Many Undecided About 1921 Acreage.

Southern Wisconsin farmers are showing considerable activity with the approach of spring weather, rushing through plowing and preparing the land for the coming year.

Many who believe in early planting have sowed their spring wheat and oats. Grain drills are noticeable in the fields. Other farmers are spraying the fruit trees for the owners realize that they must kill the diseases which have affected the fruit bearing trees in this section in order to obtain a good crop in 1921.

Demonstrations are being held in showing the farmers how to save, instead of destroying their apples, pears and fruit bearing bushes.

Lost on Tobacco
Most of the tobacco crop of last year has been sold and will be needed. The farmers made very little profit on the 1920 crops for the price still remains around eight cents. Farmers are concerned with the problem of whether to cut down their tobacco acreage or to raise the usual amount in hopes that the tobacco market conditions will change from 1920 to 1921. Farmers will turn their fields over to a more certain crop, it is declared.

Land Values Firm
Farm land prices still remain strong in Rock, Walworth, Jefferson and Green counties. While there was some "calamity howling" a few months ago, it remains a fact that the land is still in demand and will not be sold at a low price. Few farmers can be found who are willing to sell their farms at a much lower price than was paid during 1920.

Speculating in Farm Lands
The speculating in farm lands has died down. The gambling element hurt the farming interests to some extent. Land speculators are not running rampant over the county flourishing another's money and talking \$500 an acre. Sales of farm lands in Rock county are averaging from \$25 to \$50 for good lands with good buildings, and \$200 for other property.

Labor More Efficient
There is one factor decidedly in favor of the farmers at the present time. Labor is cheaper and more efficient. It is a significant fact that while many industrial workers are out of jobs the farmers cannot get all the men they need. Mechanics who can draw around \$1 an hour in high production times are now turning to the farms for jobs. Although hundreds of men have started working on the farms aiding in the spring work, there is still a big demand for farm help.

Change in Farmers
There is one great thing apparent in Rock and adjoining counties. The farmers are thinking more for themselves and thinking less for themselves and more for their own benefit. They realize more and more that they have to adopt some new methods to beat the farm game and make a profit. The new generation is progressive. He does not sign the practical end of farming a bit. He realizes that experience counts the most and not theory. However, he is willing to experiment with the new methods to obtain practical knowledge.

More and more the practical farmers are beginning to consider new factors generally coming from the Wisconsin experiment station. They realize better seeds produce more and consequently better profits without additional labor costs. They are becoming more interested in soil testing, proper fertilization and lime use. Demonstrations are showing them practically and not by theory, that some of the modern methods are the right thing for them to adopt.

Machine Meeting
County Agent R. T. Glossco and C. E. Culver were in Racine Thursday attending a state meeting of county agents. A closer federation and program of work is expected to result among the county representatives in Wisconsin as a result.

Two additional limestone crushers were purchased by the Farm Bureau Wednesday as the result of action taken by the committee meeting in the court house. It is hoped that the crushers will be received within the next ten days and placed in operation so as to enable farmers to obtain cheap lime to put on their soils before planting.

MARCH 30 LAST DAY TO AVOID PENALTY
Delinquent real estate and personal taxes must be paid to City Treasurer W. J. Lennartz by next Wednesday as he expects to turn over the tax rolls to the county clerk that day. The two cent penalty tax is now in effect and on those not paid by next Wednesday an additional 5 per cent will be added when paid at the court house, Mr. Lennartz says.

No check-up has as yet been made on the amount of unpaid taxes. In going over the list of tax rolls he found about \$5,000 delinquent. It will average about this in every ward, he believes.

Give her a box of Razook's Candies for Easter.

SHERIFF WARNS OF COLD SPRING
"Don't discard your overcoat, you may need it many times before June 20," warns Sheriff Cash. While in predicting weather conditions for the spring.

The sun crossed the line Sunday at about nine o'clock. The wind Sunday morning was from the south and warm. In the afternoon and evening it shifted to the northwest and turned colder. The prevailing winds have been from the northeast and cold. Therefore we are not going to have as warm and open spring as we first thought.

The season will be favorable for small grains, barley, oats, and wheat," declared the sheriff.

When the sheriff made a prediction some time ago, a police officer in Walworth County, Dakota, wrote him requesting information whether this spring "would be good for wheat."

HOT CROSS BUNS ON SALE FRIDAY

The Hot Cross bun, a Holy Week tradition of the past centuries, will usher in Good Friday morn, making its annual appearance.

Buns, in their religious significance have been one of the most popular observances to come down through the ages. In connection with Good Friday of Holy Week, the tradition of commemoration of Christ's crucifixion and held as a festival by churches from the earliest times.

Bakers and housewives are busy making the buns which will grace the tables of many homes in the city at breakfast Friday, grocers are busy making orders for this popular food in answer to the Good Friday song:

One a penny, bun,
Two a penny, bun,
One a penny, bun,
Two a penny, bun,
Hot Cross buns.

The bun, of small size, is well spiced, with a brown sugary surface marked with a cross.

The tradition of the bun is based on an old superstition regarding bread baked on Good Friday which is kept by a family all through the ensuing year under the belief that a morsel of it in water will prove a specific for ailment.

House Robbed by Local Talent

That the robbery at the home of the late C. W. Jackson, South Division street, was the work of local talent is the belief of Night Police Captain Charles Dickinson, who completed his investigation Wednesday.

He justifies the loss will be much less than the \$2,000 estimate, explaining that only a few furs, dresses and glassware were found missing.

Planning of the robbery at the Jackson home has led to the discovery of an entrance into the home of a P. Hall, 308 South Second street, across the street.

The Halls have been spending the winter in the south. According to the police, the furnishings were mauled over but nothing was taken. The police department when their houses are going to be unoccupied all winter, could be watched to guard against just such things as these.

CARDINAL GIBBONS DIES IN BALTIMORE
Continued from page 1.
seriously ill in December, suffered a stroke of the heart Sunday evening after returning from an automobile ride.

Hot Weather Depressing
The sudden change of weather, which brought unseasonably high temperatures, had a depressing effect. His fainting spells returned. Cardinal Gibbons' physicians said repeatedly in the earlier stages of his illness that he was sound, organically, as could be expected in a person of his years.

But that he suffered from the effects of his age and from fatigue in the performance of his duties as senior prelate of the Catholic church in this country.

Had Great Capacity for Work
Although not of robust build, the cardinal enjoyed remarkably good health and his close associates often marveled at his capacity for work. His tireless industry and his executive powers. But about 6 months ago a change became noticeable. He grew thinner, became less active in his movements, and other signs indicative of a breaking up appeared. As a member of his household expressed it, "his eminence seemed to grow old suddenly."

Keeps Up Daily Routine
Nevertheless the cardinal continued his usual daily routine, interrupted only by visits away from home to church functions, the most notable of these being the Pan-American exposition in Washington on Thanksgiving day.

He was suffering from a cold, but apparently felt no ill effects from the trip and a short time afterwards went to Emmitsburg, Md., to participate in a religious celebration where he again exhibited weakness.

Then, in pursuance of a plan for a rest, the cardinal went to the home of his life-long friends, the Sherrys, at Union Mills.

Condition Was Serious
Instead of staying there a few days as he had originally intended, it was a full month before his condition improved. He was unable to move. Twice while there he collapsed and so grave was the crisis that the last sacraments were administered during the first week.

The attacks of weakness which first brought realization to the cardinal's household that he was aging rapidly, began with a cold. While preaching at Havre de Grace on Sunday, November 8, after having confirmed 150 children, he suddenly became faint, but was able to continue in a few moments.

Mental Faculties Alert
The cardinal's mental faculties were now impaired by his physical infirmities; on the contrary, his mind seemed to become keener as his body grew weaker. He realized his end was approaching and prepared for it fearlessly.

James Gibbons was born in Baltimore July 23, 1824. He received his early education in Ireland. He was ordained a priest June 30, 1861, serving in Baltimore churches. He was nominated as a cardinal and invested with the princely insignia June 29, 1886.

City Management Contest Now On in Beloit Occupies Center of Stage

Beloit is concerned—deeply concerned—over the management of its municipal government.

Starting from a commonplace meeting of a dozen or more men of affairs several weeks ago, the movement for the managerial form has grown with such force and speed that it now occupies the center of public attention in Beloit.

There is nothing radical about the move. Ward meetings are being held. Resolutions are being passed either for or against the new form for Beloit. The issue has reached a point where people are taking sides and thinking about the question.

Brannon Is Interested
"While I am not one of the founders of the movement to start a campaign for the managerial form of government, I am interested in the issue," said Dr. M. A. Brannon, president of Beloit college, Wednesday.

"The tradition of the city. We have good municipal government in Beloit. Our council has faults, but what council has not some defects either in policy or system?"

"In my mind the question of managerial form of government is based on the vital issue of time, economy and efficiency. Right is the basic principle of government which is going to be the best for society."

Compares With Corporations
"I am interested in the policy of corporations. Now when you see social advance in the last 25 years. That progressive and rapid advance has been directly through the application of the managerial form of government. That system demands efficiency and economy. No problem is too big or too important for them to solve."

"We have watched the success of business through corporations. It has likewise affected society. Now why not apply the same principles to city government? I agree that success in city government like everything else depends on the quality of leadership."

Three Forces in Beloit
"In Beloit there are three distinct forces. There is the conservative element who have managed the city for 50 years or more. They are extremely sensitive to any change. The present is 'good enough.' They are satisfied. They are not inclined with the modern improvement nor do they strive to better the 'good enough,' said President Brannon.

"Then there is the liberal element. The progressive do not think the present form of city government is the best. They are willing to be convinced that there is a government for this city or any city which will produce better results for society. They have seen the success of corporation control. I attempt to apply the same methods to education and industry."

There is no question but what our Mayor, Mr. Jannin, is an able man. He is exceptionally good on figures. However, if he has been quoted correctly, I think some of his contentions are far-fetched," said the Beloit college president.

"Now, for instance, he has been quoted as having said that of all the money appropriated and used by Beloit, the city council has only about \$5,000 on which its judgment is used in expending. I doubt this statement very much. Now think of it. The city council has only jurisdiction of \$5,000."

The main fault I have with the present form of government is the loss of efficiency. Now take the plans for the new Beloit bridge. The city paid out something like \$1,200 for having plans drawn for the structure. When it came to a point after the contract, it was found that no railing had been provided for in the plans. That is a loss of time, money and efficiency. The city could have employed its own engineers to plan for the bridge. A corporation would have used its own.

STATE PLANS AUTO CRUSADE, APRIL 1

Officers to Comb Wisconsin to Ferret Out License Tag Violators.

State agents will start out April 1 on a crusade to round up auto owners driving without 1921 licenses and all other violators of the statutes governing motor cars and trucks, according to advices received here Thursday from Secretary of State Elmer S. Hall. Notices were received by Mayor T. E. Welsh and the police department.

These agents will direct the arrest of persons for the following infractions, according to Mr. Hall: Wisconsin cars and trucks without current license.

Wisconsin cars carrying other state licenses.

Trucks which have paid \$13 for operating wholly within the city limits which are found running outside of cities.

Cars carrying plates not attached according to law.

Failure to transfer license with change of ownership of cars.

Passenger automobile buses carrying automobile plates in lieu of truck plates.

It is expected that the legislature will give these inspectors full power to make arrests at their own discretion. Secretary Hall warns, "They will, however, be instructed to cause the arrest of all persons found operating cars without licenses. The persons so arrested will go to the state."

ELECTRICAL RATE HEARING POSTPONED
The hearing before the state railroad commission on the petition of Walworth and Jefferson county municipalities for lower electric power rates has been postponed from March 29 to April 11, according to Attorney W. H. Dougherty and T. S. Nolan who are representing a number of the villages and cities seeking a lower rate.

SS LICENSES.
Application for marriage license was made Thursday by Venes Cole and Corienne Lois Marsh, both of Beloit and Raymond N. Richards, Janesville and Ella T. Ullrich, Janesville. There have been 38 licenses issued thus far this year.

WIDEL'S DISAPPEAR.
Driving to Janesville from Rockford, Wednesday, H. H. Clark, Monroeville, lost two wire wheels from his car. It was reported to police.

HOSPITAL HEARING SET FOR NEXT WEEK

Delegation From Here May Appear at Conference in Washington, D. C.

Changes may be made in the plans of the Janesville Chamber of Commerce to send a committee to Chicago next week to present this city's claims for the location here of one of the government hospitals for wounded and crippled soldiers. An Associated Press dispatch Thursday from Washington announces that the public health department will assist in hospitalization plans will hear representatives of states and municipalities, which have hospital sites to offer, on Wednesday and Thursday of next week.

The Janesville committee planned to call upon Dr. Frank Billings, noted Chicago surgeon, who is to represent the government. Since he will be in Washington, it is probable that the local committee will be sent there. No comment could be procured here Thursday because L. C. Johnson, manager of the Chamber, is in Madison.

It was stated in the dispatch that possibilities of utilization of existing federal owned lands and buildings for hospitals would be considered in the recommendations of the advisors.

Order Easter Flowers now. Janesville Floral Co.

Blind Girl to Race for Place on County Board

Miss Caroline M. Palmer, daughter of H. A. Palmer, 427 Logan street, will oppose W. J. Scott for supervisor from the Sixth ward. This became known definitely Thursday when nomination papers were filed for her with City Clerk E. J. Sartell.

Miss Palmer is totally blind. Nomination papers for Percy W. Hall, city clerk were filed Thursday afternoon. They were the only two filed up to 2:45 p. m.

In the new Third ward there are only two new candidates so far. J. K. Jensen will run for the two-year term and A. J. Gibbons for the one-year term.

ACCIDENT VICTIM SLIGHTLY IMPROVED

Owing to the serious condition of Martin Ryder, who lies in Mercy hospital fighting to recover from injuries sustained in an automobile accident Monday, physicians attending him have been unable to make a thorough examination as to the extent of his injuries. The left lung was pierced. Dr. Wayne A. Mann, who is attending him, said Thursday that Ryder showed slight improvement but would not state definitely that he was past danger.

S. G. O'Grady, brother of the people who narrowly escaped fatal injuries in an automobile accident near Fort Atkinson Sunday when the car driven by Lee Boecher, rolled down a 14 foot embankment, lacerations of head and legs. Mr. O'Grady, Chicago, is visiting here. Other victims of the accident were not seriously injured.

CLINTON

Clinton—A. N. Larson and family, Church street, have moved to Gilmer, Ill. The monthly social of the K. J. C. class, Presbyterian Sunday school, was held at the home of Mrs. Ella Foley on Duane street, Wednesday afternoon. Mr. and Mrs. Fred Schroeder, Turtle, have bought a new piano. Mr. and Mrs. E. Northway and Mrs. Wm. Elthorp took in the Evangelist meetings at Beloit Sunday afternoon. Mrs. L. F. Beals spent Saturday and Sunday in Beloit, the guest of her daughter, Mrs. Robert Weirich. The Baptist people will have an afternoon and evening meeting Thursday. Delegates will be present from other churches. The Presbyterian church is arranging for Easter. The evening service will be largely musical. New members will be admitted to the church, and the communion observed Sunday morning. Mrs. E. L. Latta, who fought her way from the hospital, left Monday, where she had been several days. Hiram Cooper, daughter, Mr. and Mrs. Solon Cooper, and daughter, Mrs. Solon Cooper, are interested in the word that "Mary Jane" Pershing is now Mrs. Frank Edwin Pershing. She was married a few days ago. Her husband is a nephew of General Pershing.

MINNESOTA DEFINES POLITICAL PARTIES

St. Paul.—Organizations that hold political conventions, endorse candidates, promulgate political principles or conduct political campaigns, would be termed political parties under a bill passed by the Minnesota senate Thursday, 35 to 21. Speakers of the Nonpartisan league faction opposed it as being aimed at the Nonpartisan league.

PAY W. C. A. PLEDGES.

The provisional committee of the W. C. A. urges those who pledged money to make payments now. To Mrs. Paul Owen, 414 East street South. First payments were due March 15.

AVALON

Avalon.—Mrs. William Ward returned Monday from a few days' visit with relatives at Waukesha. Her daughter, Nova, of Milwaukee, spent Sunday with her. Clyde Rokenbrodt is numbered among the sick this week. The Sunday school classes of Mrs. J. Lester, Mrs. Wm. Dean and Mrs. E. C. Ransom met with Dorothy and Rodney Boynton, Sunday afternoon. Mr. and Mrs. C. J. Stoner entertained Mr. and Mrs. Chas. Stoner, Albert Canada and Mr. and Mrs. John Cooper, Clinton, Sunday. Flora Belle Boynton is convalescing from an illness of two weeks. Mrs. Deane, Beloit, spent last week with her sister, Mrs. Herman Plowke.

LATE BULLETINS

Milan, Italy.—Nationalist elements are repulsed in an attack on the office of a socialist newspaper in the city for the explosion of a bomb at theatre causing the death of 20 persons.

Dublin.—Twenty-four persons were killed and 39 wounded in ambushes during a day in reprisals for recent executions.

London.—President Harding will be a parade of Latin-American dignitaries in New York April 12, in honor of Simon Bolivar Venustiano Carranza, while similar exercises occur in Caracas.

St. Louis.—The trial of "war criminals" before the supreme court at Leipzig will begin early in May, with the cases complained of by the British being first.

London.—A bomb explosion killed persons and injured many more in a theatre at Milan, Italy, according to patches, being probably the work of anarchists as a protest against the state's imprisonment.

Indianapolis, Ark.—Officials of the International railroad brotherhoods here are indicted for inciting to disorder by the Boone county grand jury, in connection with the Missouri and North Arkansas railroad strike.

Returns From China

Miss Eleanor Anthony.

Miss Eleanor Anthony is one of the prettiest girls of the city who set in Washington. She has just returned to the capital after a four months' visit to Peking, China. She is the daughter of Representative and Mrs. Daniel R. Anthony, of Kansas and a great-niece of Susan B. Anthony, the suffrage pioneer.

"MARY JANE" WEDS

Frank Edwin Pershing and his bride, Miss Mary Jane Pershing.

Hundreds of thousands of children and grownups who laughed at the antics of "Mary Jane" and "Buster Brown" in Richard Peltou Outcasts' comic, are interested in the word that "Mary Jane" Pershing is now Mrs. Frank Edwin Pershing. She was married a few days ago. Her husband is a nephew of General Pershing.

Pres. duPont Talks at Luncheon

That the Samson tractor plant of the General Motors Corporation will be operated at its capacity as soon as the business conditions warrant and that the whole situation hinges on the agricultural activity of the country was the statement made at a luncheon given to 24 citizens of Janesville to meet Mr. duPont at the Samson school, at noon Thursday.

It looks as though there was to be a sad year and after that I look for better conditions. But it will take a year to get back to conditions that will warrant expansion.

Mr. duPont, with his secretary, J. F. Airls, has been in Janesville for a day, leaving Thursday night for the east. Mr. Craig, president of the Samson Tractor Co., arranged a luncheon. Mr. duPont spoke briefly, gave promise to the city of Janesville for its progressiveness and said he would be glad to have some of the eastern clients come to Janesville, and see what it was doing.

He spoke of the business conditions and that there was a marking of time until adjustments had been made. He assured Janesville that when that time came the Samson would be found doing its share.

D. A. R. Food Sale Saturday at Leath's, at 10 o'clock.

Vienna Panicky Over

Czecho Slovak Movement Vienna.—Rumors that Czecho-Slovak troops have been concentrated on the Austrian frontier have caused a panicky feeling here, in view of the internal political conditions in the Austrian republic. It is asserted in certain quarters that the military activity of Czecho-Slovakia is due to the marked sharp release of the movement for fusion with Germany since the untimely death of Chancellor Mayer's London mission has become known.

KIWANIS HEAR

Beloit Attorney

E. W. Adams, Beloit lawyer, mentioned for federal judge in Wisconsin, spoke at the weekly meeting of the Kiwanis club Thursday noon at the Grand hotel on the work of the Kiwanis club in the community and what it has and could accomplish. Four new members were admitted into the club. Leo Atwood was chairman of the entertainment committee. Mrs. Elbridge Field entertained with several readings.

Rail Traffic Resumed

After Tie-up of Week

Harrison, Ark.—Traffic was resumed on the Missouri and North Arkansas railroad Thursday after a tie-up of more than a week due to destruction of railroad property. One train each way on the northern end of the line was opened with guards on the train and special officers and citizen volunteers patrolling the tracks to prevent destruction of bridges or other property.

Nothing else so enhances the value of a thing as difficulty in obtaining it.

RAIL UNIONS TEST WAGE CUT IN COURT

Authority of Federal Board to be Determined by Court Action.

Columbus, O.—A test suit to determine what authority the federal railway labor board may have in backing up its ruling that railroads may not reduce wages until after the conference with employees, was filed in federal district court here by Attorneys Randolph W. Walton and W. S. Peeler, representing 1,200 employees of the four subsidiary lines of the New York Central railroad.

The action is brought by Cecil E. Jewell, a member of the United Brotherhood of Maintenance of Way Employees of the Toledo and Ohio Central railway, and is said to be the first attempt made in the country to get the court's interpretation of the powers of the labor board.

When Inherited Wealth Is A Doubtful Blessing

"REMEMBER," said Benjamin Franklin, "that money is of a prolific, generating nature." But one of the things that money can generate, if unwisely handled, is trouble and that is why thoughtful husbands and fathers should consider what will be done with the money they leave.

"The will which simply leaves money or other property in bulk to a woman who has never even had her own checking account, or to children utterly unskilled in business affairs, or even to the guardianship of a good friend who is busy with his own interests, is in most instances a doubtful blessing," says a well-known writer.

The answer to the problem is simple and easy. Money and property may be left in trust. Let one of our personal trust officers tell you of the business advantages of a trust in your will and how you may plan it.

This Company has available for distribution copies of the booklet entitled "Safeguarding Your Family's Future."

A Sweetheart at Thirty

The Story of a Woman's Transformation
BY MARION RUBINCAM

CHAPTER III.
THE NEWS FROM TOWN.
Violet's letter was unusually thick. It was dated Sunday, and I judged from the length of it that she must have spent all her Sunday afternoon writing it.
"Dearest Aunt Edith," she began. "I wish you would come back. I know you don't want to stay in so poor a place as Holly Hills, and mother's actually getting tired of the city. I don't believe she ever really did like it; she came from curiosity, and now she wants to go back. I'm afraid."
"I think I'd better tell you the news first. Uncle Francis—he told me to call him that, isn't it funny? I have to practice it again, and again, and such a look as he gives me when I forget and call him Mr. Francis—anyway, to get back to what I was going to say, Uncle Francis sent the college check for my next term, which begins in a week."
"Wasn't that lovely of him? I simply hugged him for it. Which mother thought was a little proper, but he liked it, and pretended to think it was more than reward for the little money that college term cost him. He was giving me so much money that you can sign checks to colleges and not think about it twice!"
"His letters were always more intimate than she was, and I always smiled as I read what she had written. This time James was in the room, waiting eagerly for news of his sister. I went back and started her letter again from the beginning, reading aloud to James so he could share it."
"Uncle Francis says he wrote you about what he had done, so I wish to tell you that. Wasn't it really lovely of him? I wish he knew how grateful I was—and always will be. Of course, it's poor, plodding James that should go and not sentimentality like me, but that's life, isn't it?—the rewards to the undeserving!"
"That's a college girl's idea for you," murmured James in derision at this place of her own philosophy.
"Mother says the city makes her nervous," the letter went on. "At first she loved to turn the hot water faucet and see the steam come out of the pipes. But that's lost its novelty for her and now she's aching to get back to what she calls a nice large kitchen where a body can move about and not be sent to bed in an efficient large barn of a kitchen was, but you can't tell Mother anything. I don't mean to be disrespectful, but she just won't let any new ideas into her head."
"And she won't go out. So evenings when I have so much studying, either Bud comes and we sit around and talk, or I read and she listens. I can't play else we can't go out. I expect that isn't nice, since Mother's my guest, but when Bud is here, she's just like to him, and she likes to budge after dinner. Anyway, please, please come back—I miss you so much!"
A little feeling of warmth and

The Letters of Tessie and Joe

DEAR TESSIE:
I hope you're keeping the house well locked up in general and my private stock in particular. Every place I hit there's nothing but talk of the crime wave and every little burg prides itself on having a bigger slice of it than the next burg.
This particular tank town that I'm at present gracing with my presence and my line of Daisy Canned Soups has even offered a reward of fifty bones for every burglar. I never saw a burglar yet that was worth \$50 (joke), but anyway with D. C. Soups doing almost nothing and rapidly less, I wouldn't object to a little side line of burglars, so believe me I cocked my ears last night when I saw two suspicious looking birds whispering together up a dark street.
"Oh boy," I say to myself, "here's where I catch a couple in the act! Two fifties make a hundred."
Well, they'd heard me coming, so they inched up a few blocks, with me ducking after them behind every tree on my faithful rubber heels, and finally they stopped again, and I cased within earshot and got a capital of the plot. One was reading the recipe for a home brew and the other was copying it down! As near as I could make out the ingredients, though I may have misunderstood some of them, they consisted of prune juice, banana oil, condensed milk, raisins, baking powder and safes.
Well, as I say, business is conspicuous for its absence, but I did manage to sell a case of soup yesterday to the interior decorating department (joke) of a department store. It seems the buyer was a woman and after all arguments failed I showed her a picture of the baby and she ordered a case on the spot. Thank the baby for me. Lovingly,
JOE.

Heart and Home Problems

BY ELIZABETH THOMPSON.
Letters May be Addressed to Mrs. Thompson, in Care of the Gazette.

Dear Mrs. Thompson: Will you please publish your opinion as to whether or not a young lady about 20 years of age should go on a long journey with a man and woman of questionable character? Should she run the chance of losing her reputation for the sake of a trip and good time?
The girl should not run the chance of ruining her reputation for the trip and good time.
Dear Mrs. Thompson: I am 19 years of age and married. I was married about one year ago. I love my husband and am very happy with him.
This winter we had a baby son born to us. He lived only a few hours. The doctor said he was born two weeks early on account of my poor health. The people around town are saying some real nasty things and seem to shun me. Before my marriage I kept my name as my maiden name, never asked with her company or went to dances, as my folks are very religious. I always held my name high because I think it is the thing that counts most to a girl.
I could prove to these people that what they say is untrue if they would only come to my face, but they go behind my back and say these things. My husband is very angry about it, but he can't do anything. I feel very badly that people should take my reputation when I have been as straight as any person could be.
ANXIOUS BROWN EYES.
"People make me tired," is the first thought I had upon reading your letter. It seems to me that the most cruel and narrow kind of gossip is to spread the story that a girl has a bad reputation. People who talk that way are unclean minded, like to think that every one else has fallen as they have fallen, or are disappointed in their own lives.
I think too, that you are super-sensitive. The fact that the baby came two weeks early makes you feel that people are talking, and perhaps you misjudge many who are

RECIPES FOR A DAY.
Deviled Eggs in Casserole—Hard boil four eggs, cut in halves and remove yolks. Mix with salt, pepper and prepared mustard and re-fill the halves. Place in a covered baking dish and set in oven to keep hot.
Now make a white sauce and melt into one-quarter pound of cheese. Pour this mixture over the eggs and sprinkle the top with toasted bread crumbs. This makes a very appetizing dish, as well as a very nutritious one, and can be made quickly with a little practice.
Vegetable Salad—One cup of sliced cooked carrots, one cup of peas, one cup of celery, one envelope of gelatin. Soak the gelatin in one-half cup of cold water for five minutes, and add two cups of boiling water, one-half cup of mild vinegar, two tablespoons of lemon juice, one-half cup of sugar and one teaspoon of salt. When the mixture begins to thicken add the vegetables. Served on lettuce nests, topped with mayonnaise, this makes a very pretty salad. This salad should be prepared in the morning, as it requires a little time to harden or set properly.
Uncooked Salad Dressing—One egg broken into a bowl. Add one can of condensed milk (evaporated), one cup of mild vinegar, two tablespoons of prepared mustard, one teaspoon salt. Beat these together and a delicious dressing will result. This can be thinned down as it is used by adding one cup of mild vinegar, two tablespoons of prepared mustard, one teaspoon salt. Beat these together and a delicious dressing will result. This can be thinned down as it is used by adding one cup of mild vinegar, two tablespoons of prepared mustard, one teaspoon salt.

vanilla extract. Stir until the sugar and gelatine are dissolved and pour into an ornamental mould. Chill on the ice and serve with sweetened whipped cream.
Apple Tapioca Pudding—Three-quarters cup tapioca (cold), one and one-half cups boiling water, one-half teaspoon salt, six sour apples, one-half cup sugar.
Soak tapioca one hour in cold water to cover, drain, add boiling water and salt. Cook in double boiler until transparent. Core and

Attention Mothers and Fathers!

Robust and sturdy boys and girls—the result of this wonderful energy-producing food

HERE is a statement by an authority on nutrition that gives the reason why there are millions of Karo users all over the country. This expert says "Karo is one of the greatest of all energy-producing foods. It brings strength and energy to the boys and girls that need lots of strength and energy for studying and playing and growing."

An important question! What is Dextrose?

You cannot live long without Dextrose. Most foods you eat—such as bread, starchy vegetables and all forms of sugar—have to be changed into Dextrose before your system can use them as energy foods. Karo contains a large percentage of dextrose—a completely digested sugar. So Karo may almost be said to be a predigested food. These are scientific facts, supported by the very highest medical and food authorities. Send for the free booklet mentioned below, and read all the facts. To have lots of energy, strength and endurance use plenty of Karo—on cakes of waffles, or as a delicious spread on bread. Many prefer it for stewing dried fruit and prunes. And it makes perfectly wonderful taffy, fudge and caramels.

FREE A booklet every parent should read. Tells all about the wonderful food value of Karo; explains the meaning of Dextrose and why children thrive on it. Sent free with the beautiful illustrated Corn Products Cook Book of sixty-four pages. Write Corn Products Refining Company, 400 N. Dearborn St., Chicago, Ill.

What Shall I Do?

Answered by VIRGINIA PAGE

"Dear Miss Page: When I graduated from high school I was class prophet; my prophecy was splendid and I received great praise for it. There was one girl, a great beauty, who is now married, whom I expect to visit next week. She considers me a wonder and says I must tell her husband's fortune. I do not know any way to tell their fortune except by card, and alas I do not know how! Will you please tell me how to go about it?—Joe."

I couldn't have helped you this time, Joe, because whatever else you or I try to be in the Column, I can't be a fortune teller. I wish I could. And anyway, "next week" is so soon to get an answer through the Column, you know. Sorry. Set luck next time.

Wants to Be an Actress
Dear Miss Page: "I am 19 years and would like to be an actress, a talented in music and dancing. People tell me I would make a actress. Do you think there is harm in trying?"—Gertude."

There's no harm in trying anything that is right. Gertude—when comes time, but you can't be an actress for a long time yet, and if you are ever to be a successful one, you must put in your time right now preparing. How? By building your

U. S. MEETS SOVIET ON TRADE BASIS

Lenino's Denunciation of Some of the Bolshevik Principles Changes Situation.

By DAVID LAWRENCE
Washington.—The Harding administration will consider seriously the making of a trade agreement with the Russian people provided certain conditions are fulfilled which will lead to the industrial recuperation of that country.

The communication from Lenine appearing in the President Harding to follow the course of Great Britain and resume trade with Russia has opened up discussion here in a significant way. Broadly speaking, the Harding administration is anxious to discourage the growth of bolshevism in the world as was the Wilson administration. So it is a question of giving more recognition to the Russian people provided certain conditions are met. The matter would not be given the slightest consideration by President Harding and his advisers.

But the situation has changed. Three policies have always been possible with respect to Russia, and while one of them has failed, the other two are still possible. These policies and their effects as discussed by members of the Harding administration are as follows:

First—External Revolution. This has been tried both by the allied powers and the counter-revolutionary elements which had the support of the allies. The effect has been to strengthen the Russian position and to weaken them, for it has given Lenine a banner around which to rally the Russians. He has successfully persuaded them that it was a matter of national honor against foreign invasion, and has convincingly appealed to the patriotism of the masses, thus delaying demands for internal reform.

Second—Revolution from the inside. The American government, in common with the British government, is unwilling to contribute anything to the situation. The Russian people, however, are not. They are more complex reconstruction problem in the end than at present.

Third—Evolution with the assistance of the United States and the allied powers. This means resumption of trade as Great Britain has already done and the gradual wearing down by moral factors of the policies of the bolsheviks. It has been obvious to the outside world.

Lenine has come a long way toward the desired goal. Little by little he has abandoned the policy of revolution and permitted the return of the capitalist theory. First he gave in to the demand of the masses for the private ownership of land, leaving behind the idea of collectivization. Then he surrendered the notion about equal wages and permitted the payment of differential wages—the cornerstone of capitalism. Now he is willing to allow foreigners to come in and work Russian industries, although he is reluctant about permitting Russians to do the same, because he says that they are not government can control foreigners but cannot always safeguard itself against the machinations of an oligarchy of industrial capitalists.

Prime Minister Lloyd George has paralleled the foregoing line of reasoning as expressed by members of the cabinet here. The British prime minister in his latest speech to parliament insisted that Lenine has changed his views and that the soviet system is being abandoned as an impossibility. He points out that the British trade agreement is a political means complete political recognition.

He calls it a de facto recognition. The viewpoint of Lloyd George that the bolshevik government has at least maintained a semblance of order and discipline over its vast territories controlled by the soviets is pointed to here in Washington as well as a good argument for encouraging evolution rather than revolution. There is no telling on which members here, what the world will face if a start is not made with the existing Russian government by the resumption of trade.

The Harding administration is not ready to do business with the rest of the world on the capitalist theory and that the recent speeches of Lenine are intended to convey that impression unambiguously. Indeed, the government here has been given to understand that a coalition between the bolsheviks and the members is also in the air and that the Harding administration is not ready to do business with the rest of the world on the capitalist theory and that the recent speeches of Lenine are intended to convey that impression unambiguously.

Everybody here recognizes that a trade agreement is best to favoring evolution. The result of the American government to the appeal of Lenine, therefore, will be an effort to pave the way for recognition of evolution. The result of the American government to the appeal of Lenine, therefore, will be an effort to pave the way for recognition of evolution. The result of the American government to the appeal of Lenine, therefore, will be an effort to pave the way for recognition of evolution.

DELAVAN
Delavan.—On Tuesday, April 5, an election in the various wards of the city will be held. The following officers will be elected: First ward, alderman in place of J. E. Cannon; supervisor in place of J. E. Cannon; second ward, alderman in place of W. H. Horton; supervisor in place of W. H. Horton; third ward, alderman in place of B. L. Sessall; supervisor in place of A. Hollister; fourth ward, alderman in place of J. E. Cannon; supervisor in place of J. E. Cannon; fifth ward, alderman in place of J. E. Cannon; supervisor in place of J. E. Cannon.

Beginning April 3, a mission will be held at St. Andrew's Catholic church which will be for one week. The mission is being held by the Rev. Fr. J. J. Meyer, who is called to Oconomowoc, Tuesday, by the death of his father, Mr. and Mrs. Ben David, Belvidere, were Delavan visitors Monday at the home of Mr. and Mrs. J. J. Meyer.

(Continued from Page 1)

that the four story pattern room and foundry will be large enough to produce all the castings needed by the company. Besides not curtailing the building a man or dollar, the Fairbanks expects to operate a part of the foundry at least when the building is completed in September.

Improvement gradual.
"When we compare the results of this week with those of last week we cannot help but be optimistic," said Mr. Heath Wednesday.

"On the other hand when we compare the results of this week with those of two years ago, then it is more or less pessimistic.

"There is no use attempting to predict what will happen in the future. We don't know. I doubt if anyone really does know what the immediate industrial future is going to be. Our business is improving slowly—but surely. I believe all concerns were caught with high inventories both of finished and rough material. That has got to be sold off the market before business will move again at anywhere near normal production speed.

Nevertheless, the expression "normal" means a more production schedule—not a "rampant" full speed and reckless schedule of production operations.

Sane Trade Revival.
"The new trade revival is going to be sane. The producers are going to put their feet down firmly and then step carefully. General business is going to make money with what they have got in order to expand and not a policy of using outside money in an attempt to make big money in a hurry. This revival is based on good business judgment, careful operation of a market, safe and stable with good competition. No one ever looks for such trade conditions as existed a year ago or two years ago. We all are going to be better off in the long run by the rebuilding of industrial plants," explained Mr. Heath.

Need Export Business.
The Deloit branch of the Fairbanks-Morse produces engines, the larger type of which finds a steady and large market among agricultural exporters. Because of the difficulties of the cities and villages to float bonds, farmers are not active in the spring market but are active in the winter market and a firm bottom in the immediate future.

"A good many people do not appreciate the effect and importance of the foreign exchange rates," continued Mr. Heath. "There is a demand for our product through export trade. The exchange rates are improving gradually. The export condition has got to adjust itself for the good of business and likewise the prosperity of every one."

Not Make Prediction.
"In any event I am not going to make a guess when the better production break will come. You can never tell when the better every day but how long it will take before the

factories will be running a full production force no one really knows. It would be only a guess. The Fairbanks-Morse is not going to increase their working force right away. We are not going to start until either the improvement is going to be slow—but sure.

"I hope Jamesville has success with her plans, especially with the Sumner. The General Motors is a wonderful organization. Growing and successful big plants in both Deloit and Jamesville would mean much to the betterment of the county and to such city," closed Mr. Heath.

Because of the difficulties of the cities and villages to float bonds, farmers are not active in the spring market but are active in the winter market and a firm bottom in the immediate future.

"A good many people do not appreciate the effect and importance of the foreign exchange rates," continued Mr. Heath. "There is a demand for our product through export trade. The exchange rates are improving gradually. The export condition has got to adjust itself for the good of business and likewise the prosperity of every one."

Not Make Prediction.
"In any event I am not going to make a guess when the better production break will come. You can never tell when the better every day but how long it will take before the

factories will be running a full production force no one really knows. It would be only a guess. The Fairbanks-Morse is not going to increase their working force right away. We are not going to start until either the improvement is going to be slow—but sure.

"I hope Jamesville has success with her plans, especially with the Sumner. The General Motors is a wonderful organization. Growing and successful big plants in both Deloit and Jamesville would mean much to the betterment of the county and to such city," closed Mr. Heath.

Need Export Business.
The Deloit branch of the Fairbanks-Morse produces engines, the larger type of which finds a steady and large market among agricultural exporters. Because of the difficulties of the cities and villages to float bonds, farmers are not active in the spring market but are active in the winter market and a firm bottom in the immediate future.

COUNTY FARMERS HOLD LIVE MEETING

Bureau of Union and Nearby Townships Hears Address by Richards.

Evansville.—The members of the Rock County Farm Bureau of Union and surrounding townships held a live meeting at Woodman hall Tuesday evening. Mr. Richards of the soil department of the State College of Agriculture gave an interesting and instructive talk on the growing of clover and alfalfa, and the use and benefits derived from the use of lime.

The point of his address was that the farmers are beginning to realize the benefits derived from these meetings and the co-operation among neighbors. From discussions among different members it was made plain that the Farm Bureau is an organization of farmers for self-interest but organized for the purpose of educating the farmers as to their needs to make their business profitable to themselves and at the same time allow them to live and enjoy some of the comforts of life as they go along. It was brought out forcibly that those getting the most benefits were those taking advantage of and using their organization.

At the close of the meeting Mr. Richards took a number of applications from farmers wishing a soil survey and test made of their farms. There is a nominal cost attached with this survey. The applicant pays \$5 for the first 50 acres and \$1 for each 40 acres thereafter. That is, a farmer having 120 acres would pay \$15 for the survey and test of the soil on his farm. Should there be other farmers in this vicinity wishing test made of their soil at this time they should take it up with the soil department of agriculture.

TENTH WARD.

HIGH SCORES MADE IN CITY BOWLING MAY BE PROTESTED

STANDING. W. L. Pot. Samson 17 782. Bako-Rites 21 750. West Side No. 1 32 440. Brandonburg Printers 32 440. Rose Printers 32 440. Crescents 32 440. Lawrence Lunch 32 440. Janesville Mach. Co. 32 440.

Although three new high figures which ordinarily would make second place in the City Bowling night were bowled Wednesday night, whether they will count is a question. The scores were made by the Samson Tractors in the roll off of a postponed game with the Bako-Rites. There is some argument that the match was not held legally, and it may be protested.

The big scores were made by the Samsons. Hitting on "all six" they smashed 231, while the Bako-Rites took their own mark of 287. They also scored 1014 in a single game, second to 1023 made by the West Side previously. Then Cook tumbled 250, second to 253 made by Jessick of the same team earlier in the season. The Bako-Rites did not do so bad in their game, making 2709. In their final game, the Samsons fell off and did not get any higher than 355.

All games were decided by a close margin. The Bako-Rites took three from the Lawrence Lunch with Richards hitting 222. West Side swiped three from Brandonburg Tractors; Samson's took three from the Rose Printers. Jessick hitting 221; and the Crescents got three from the Janesville Machine Co. by Correll.

WEST SIDE. CITY LEAGUE. West Side No. 1. Cunningham 166-519. R. Ryan 177-500. R. Ryan 177-500. Patton 182-510. Correll 182-510. Totals 520 945 2935.

Brandonburg Printers. Schmidt 174-513. Pire 138-479. Baumann 138-479. Kueck 138-479. Totals 700 787 3403.

High team score, single game, West Side No. 1, 1014. High team score, total three games, West Side No. 1, 3295. Second high individual score, M. Ryan, 203.

Crescents. Hughes 184-528. A. Huebel 180-513. H. Huebel 168-513. Merrick 138-479. Totals 560 821 3414.

Janesville Machine Co. FORFEIT. High team score, single game, Crescents, 930. High team score, total three games, Crescents, 2287. High individual score, Merrick, 236. Second high individual score, A. Huebel, 196.

Bako-Rites. Richards 174-513. Nelson 193-502. Newman 181-500. Burke 167-483. Totals 523 908 2709.

Samson Tractors. Cook 212-513. Kitchoff 170-513. McKenzle 222-513. Cummings 168-513. Jessick 167-513. Totals 1014 982 3831.

High team score, single game, Samson, 1014. High team score, total three games, Samson, 3287. High individual score, Cook, 250. Second high individual score, Richards, 224.

East Side. Samson Tractors. Cook 212-513. Kitchoff 170-513. McKenzle 222-513. Cummings 168-513. Jessick 167-513. Totals 1014 982 3831.

High team score, single game, Samson, 1014. High team score, total three games, Samson, 3287. High individual score, Cook, 250. Second high individual score, Richards, 224.

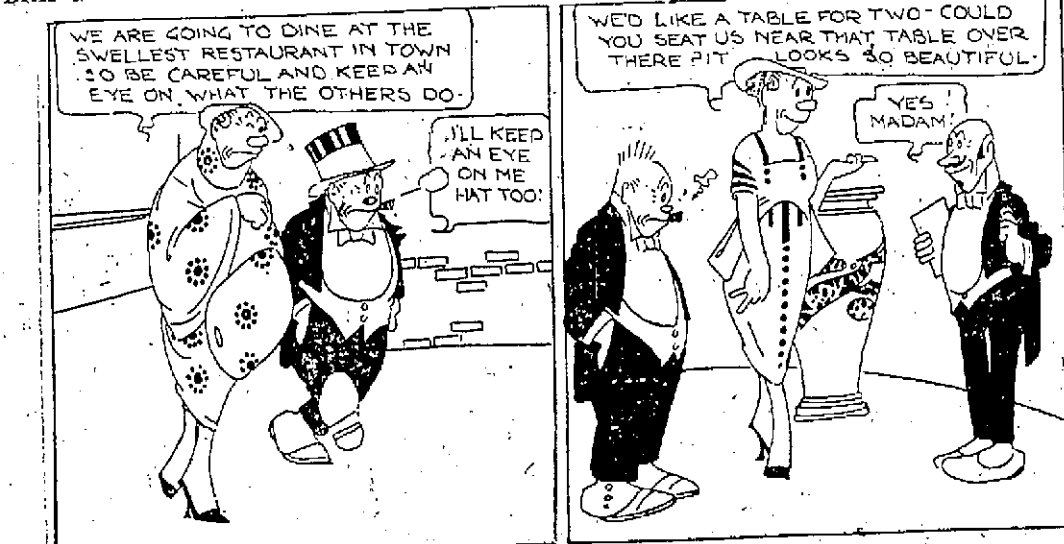

Boxing Notes. Bill Snaddon, of Victoria, defeated Ernie Dailly, of Chicago, on points in a 10 round bout at Victoria Wednesday night.

Pete Herman, of New Orleans, former world champion bantamweight, met George Adams, of Chicago, in a 15 round bout at New York Thursday night.

Boston Refuses to Enter Hockey Meet. Boston, The Boston Athletic association Thursday announced it would not be a party to a meeting of play in the eastern section of the United States Amateur Hockey league. It had been announced that President Haddock of the league, after hearing representatives of the Boston Stone Trades club at Pittsburgh last Tuesday, had ordered the replaying of a protested game which stood as a victory for Boston A. A.

No Changes Occur in National Bowling. Buffalo, N. Y.—Bowlers from Rochester, Louisville, Chicago, Cleveland, Youngstown and Ashtabula will roll in the five man event of the A. B. C. tournament Thursday. The five man games Wednesday night as well as the doubles and singles of Wednesday were devoid of high scores.

BRINGING UP FATHER

CLOSE GAMES IN CHURCH BASKET LEAGUE WED'DAY

STANDING CHURCH LEAGUE. W. L. Pot. St. Patrick's 6 1,000. Baptist 4 2,666. St. Mary's 3 2,666. St. Paul's 3 2,666. First Lutheran 3 2,666. Congregational 4 2,666. Presbyterian 1 4,200. Methodist 1 5,136. Trinity 1 5,136. United Brethren 1 5,136.

Close and surprising games started the followers of the church basketball league Wednesday night. The biggest reverse so far in the mix-up affair came when the Congregationalists pulled up from a one-point lead to beat out the Baptists by a single point, 17 to 15.

The exciting finish was in the victory of St. Mary's over the United Brethren, 9 to 6. With the score tied, 6 to 5, just before the final whistle and only one field goal being made during the period, a free throw on Bolo's foul gave the Saints a one-point lead. Then Knipp shot over a sloppy, but most spectacular shot, to clinch the laurels; St. Patrick's had an easy time winning, 29 to 2, from the Methodists.

By its win, St. Mary's went into a tie for second place with the Baptists. St. Paul's and the Congregationalists are following close in fourth and fifth respectively.

Summaries. Congregationalists 18 ppts. J. Austin, 12; 1000. Palmer, 12; 1000. Barriage, 12; 1000. Hummel, 12; 1000. Spoon, 12; 1000. Hummel, 12; 1000. Spoon, 12; 1000. Hummel, 12; 1000. Spoon, 12; 1000.

Bowling Meet Starts Saturday

First games in the Southern Wisconsin Bowling tournament to be held on the West Side alleys under the direction of Dr. S. M. Richards of this city, will be rolled Saturday according to announcement made by the alleys Thursday. The tournament was originally scheduled to start Wednesday, but extension of entry time made the change necessary.

Approximately 30 teams have entered. This is the first meet of its kind to be held here in several years.

TRAINING CAMP JOTS

The Detroit Americans are to bring their stay at the training camp at San Antonio to a close Friday with a game with the doughboys from Camp Travis, the receipts to go to the soldiers athletic equipment fund.

The New York Americans meet the Brooklyn Nationals in a final of a four game series at Alexandria, La., Thursday. Pink Dodie, suffering from a slight injury to his ankle is reported to be taking things easy and will not play for a week.

Spring training activities for the Chicago White Sox closes Thursday. Thursday night the regulars leave for Wichita Falls for three games. Three pitchers, Jorgensen, the Iowa school teacher, McWhorter and Franks have been released. Waco, Texas has been picked as the training camp for next spring.

Derrill Pratt, second baseman acquired by the Boston Red Sox from New York, will report for duty shortly before the opening of the season. He had announced he would retire from major league baseball. The Red Sox infield, composed of Pratt, McInnis, Third Baseman Vitti and Shortstop Scott, is valued at \$250,000. By stop Scott, is Everett Scott, President of Frisco, a former shortstop, who holds the major league record for continuous play, is suffering from an infected lip which may cause an operation.

Manager, Speaker of the Cleveland Indians intends to keep his squad intact until the middle of April. At least, Bida have been received from minors for several of the regulars.

A deal to purchase the Los Angeles club of the Pacific Coast league by the owners of the Chicago Cubs is said to be under way. President Powers of the Los Angeles club are to confer Thursday. George Malsi was the hero of the Cubs' 7 to 5 victory over Vernon Wednesday, handing five difficult chances successfully in left field. Speed Martin held Vernon harmless for five innings.

Percentage for Dempsey, Carp Instead \$500,000

New York.—The half million dollar purse for which Jack Dempsey and Georges Carpentier were to have fought on July 2 has been withdrawn and the heavyweights will box on a percentage basis, Promoter Tex Rickard announced Wednesday after several conferences with representatives of the principals.

Under the new agreement, the putative will receive 60 per cent of the gross gate receipts, the winner to take 60 per cent and the loser 40 per cent. The contract originally provided for \$500,000 and Carpentier \$200,000.

SPORTING BRIEFS

Cashman, N. Y.—Sir Thomas Lipton donated a silver cup for the competition among Sling Sing baseball teams.

Evansville, Ill.—The Northwestern football practice at the Northwestern university will be started on April 1.

Ann Arbor, Mich.—Walter B. Rea of Erie, Pa., was unanimously chosen captain of Michigan's basketball team for next year.

New York.—The names of the seven American women entered in the ladies' championship match of the Ladies' Golf Union of Great Britain were given out.

LUCKY CURVE GIRLS DEFEAT JACK KNIVES. The Lucky Curve girls of the 141 pins, 1035 to 885, in two games. Minnie Knopp had high of 135.

INCOME TAX NETS U.S. \$675,000,000. Washington.—Income and profits tax collections for the March 15th installment was estimated by Secretary Mellon today to aggregate \$675,000,000. To the close of business March 22, \$650,000,000 had actually been deposited from the collections, Mr. Mellon added.

Mr. Mellon estimated on this basis that total revenue from income and profits taxes for the fiscal year ending June 30, would aggregate \$3,850,000,000. This amount, he said, was fully up to the treasury expectations.

SPORTS AMERICANIZE SAYS K. C. EDUCATOR

Sport pages of newspapers as text books is an innovation in certain schools of Columbus night schools giving citizenship courses. "American Sport," Supreme Secretary William J. McGinley stated in announcing the innovation. "It is an important part of American citizenship. Our teachers find sports a fine avenue for introducing Americanization to foreign born students. Especially on the sports page as it is spoken. We find that men taking citizenship courses progress much more rapidly. If they are given a ground work in the terminology of American sports. The practice will be introduced in all K. C. schools giving the citizenship course, which is basically a study of the constitution."

Brewers Play Mobile Thursday

Gulfport, Miss.—Bob Trentman, master of the bull pen last season, and who pitched in the daily practice tilt on Wednesday and led them such a merry dance that the rookies finished in front of a score of 2 to 1. Bob's hurling was the feature of the combat. Alec McCarthy picked the bill for three hits, but all the other regulars looked sorry before Trentman's sharp shooting.

The game was the Brewers' final practice contest until Saturday, as they will go down the Gulf coast to Mobile Thursday for games with Hermon. Bronkie's Southern Peasners. Two games will be played there and Egan hopes to get some real practice against the home club.

PURPLE WILL HAVE BASEBALL OUTFIT

Evansville, Ill.—For the first time in five years Northwestern University is to have a baseball team this season. A promising outfit has been developed by Coach Jack Sawtelle and the school has been completed.

Seventeen games are to be played, starting with Armour Institute, April 8, at Evansville. Twelve conference games are on the program. There are eight home games and nine trips.

Kingdon Gould Is Sued by Divorcee for Alleged Broken Promise to Wed

Kingdon Gould.

New York—Despite extreme measures to keep the matter secret, it has become known that Kingdon Gould, son of George J. Gould and one of the young members of the millionaire family, has been sued for breach of promise by Mrs. Richard Blum, a dentist. Mrs. Blum demands \$500,000 damages.

Suit and complaint were served on the defendant through his attorney, more than three years ago, but the case has not come to trial.

Kingdon Gould is 32 years of age, married, and has two children. He married Miss Anna Maria Camilla Maria Latch, an art student, in July, 1917, shortly before Mrs. Blum's breach of promise action was started.

How They Met.

Mrs. Blum is about 29 years old and is the daughter of Dr. Bartholomew J. Lefkovic, a physician. She has a son six years old by her marriage to Dr. Blum.

Kingdon Gould and Mrs. Blum met several years ago in the Catskills, where her father owns a summer home five miles from Poughkeepsie, one of the Gould estates. The relationship is said to have begun in a meeting when Kingdon Gould was fishing near her father's house in the trout stream on the Gould property.

At the time of the meeting, on March 2, Mrs. Blum began action for a separation from Dr. Blum, but it was converted into an action for divorce. The divorce action went to trial on Nov. 4, 1918, and a divorce was given Mrs. Blum. Dr. Blum appealed, but she obtained an interlocutory decree on Feb. 15, 1919, and the final decree was granted on June 7, 1919. Custody of the child was awarded to her.

Kingdon Gould was married to Miss Latch in the rectory of St. Patrick's cathedral on the afternoon of

When Kingdon Gould was at Camp Dix the summons was served on his lawyer, Robert B. Knowles, who accepted service. The complaint was mailed to Mr. Knowles, who sent his answer to Norman P. S. Schloss, attorney for Mrs. Blum. Knowles asked for a bill of particulars, but so far has not received one from the plaintiff's lawyer.

The lawyers agreed to avoid publicity and refrained from filing the papers.

The case became public because attorneys for both sides were summoned before Supreme Court Justice Finch in chambers, recently, to argue a motion for the vacation of an order issued by Justice Finch calling for the examination of young Gould before trial. Schloss obtained from Justice Finch an order for Kingdon Gould to submit to an examination. Knowles asked that the order be vacated.

In arguing the motion, Mrs. Blum's lawyer told the court that Kingdon Gould had urged Mrs. Blum to divorce her husband; that he had furnished the money to engage detectives who obtained the evidence on which she got her divorce, and that she obtained her divorce, she told him she was now free, and that he then promised to marry her. He also said that Gould's refusal to submit to an examination for insanity was a breach of promise.

Her Charges Denied.

Knowles told the court that Gould denied every allegation in Mrs. Blum's complaint except the charge of insanity. In the course of the debate in Justice Finch's chambers Schloss declared that Gould's attorney had offered \$10,000 to settle the case. Mrs. Blum refused to discuss the case.

Justice Finch reserved decision and order both sides to file memoranda within a few days.

their parents, either by size or exercise of skill.

The kingfisher is without a song, not even attempting such a frivolity in the courting season. His rattle is just the sound we expect as we stroll along some quietly flowing stream or babbling brook.

Another Cut in Price of Eggs Is Noted Here

The market on eggs in this city took another big drop during the week, after remaining quiet for two weeks following the drop from more than 60 cents per dozen to 50 cents. The present prices being paid by local dealers is 20 cents. The early part of last week the market dropped from 30 to 25 cents. It dropped again to 25 cents, and Thursday morning took another big drop to the present price.

The market on butter raised a half cent, Thursday morning, the price now standing at 47½ cents per pound. Other items of the vegetable market remained the same and there were no changes in the grain market.

EXPECT REVELATIONS IN CHESS TOURNEY

Chess enthusiasts attending the world's championship match between Dr. Lasker and Jose Capablanca of Havana, were expecting Thursday that the fifth game of the tournament to be begun. Thursday night to be marked by sensational play by the masters.

This expectation had its origin in the rapid play in the fourth game Wednesday night which was drawn after the 30th move.

First Entry in Bird Contest Has Been Received

Bithyie Kranz, of Lima Center, aged 12, has the honor to be the first to enter the Gazette contest on the coloring bird pictures. Miss Bithyie is seated in her work and her little book of cards is splendidly done.

Robert Pierson, aged 11, was the second to come into the contest with a complete series of ten birds colored. Robert says he has cut all the bird pictures out of the Gazette since the beginning of the contest.

Now there should be about five hundred or more others who have a desire but who compete for the prize, but most of all to get out of the work itself, the training and the good results that will be theirs from studying these bird pictures and trying to color them as nature has.

Remember you never get anything in this world that is of any value

without some effort on your own part.

Opens March 16, 1921.

Closes May 1, 1921.

Open to all children 12 years of age or under in Southern Wisconsin.

Nearly every day a picture with a description of a bird and directions about color appears in The Gazette on the woman's page. You can cut out one of these pictures as they have appeared or as you see them from day to day right up to the time of the closing of the contest. But the pictures must be cut from The Gazette bird articles. Paste the picture on a card 3 by 5 inches, paint as directed in the description, give the name of the bird and the date when printed in The Gazette. Mail the ten pictures to the Bird Contest Editor, Gazette.

These are the prizes to be given:

First prize, \$5.

Second prize, \$3.

Third prize, a book of colored plates of birds.

Fourth prize, \$1, and fifth, \$1. Address all letters and prize pictures to Bird Color Contest Editor, Janesville Daily Gazette, Janesville, Wis.

Voice of the People

Editor Gazette:

In view of the fact that many people accept newspaper reports as truthful and unbiased, I feel called upon to make the following statement:

The Gazette, in reporting the proceedings of Monday night's council meeting, stated that I considered the filing of a certain petition as a personal affront. In attempting to converse or interpret my mental attitude, the Gazette has made a mistake; an innocent one perhaps, but nevertheless a mistake.

I recognize the right of any citizen or number of citizens to file any petition they may desire, and in no way would I consider their action as a personal affront. This state-

ment is really too silly to answer, but I don't wish to have any citizen mislead about my official conduct. I did say that I was surprised at the filing of the petition just at this time, and I thought I understood the intention back of it. I made no further comment. The balance of my remarks were reported verbatim. As a matter of fact, the thought was suggested to me that the originators of the petition were not friendly to me politically. Most of the ladies who signed it were probably innocent of any intention to criticize me.

I stated that I was as strongly in favor of law enforcement as any citizen in the city, and without extensive argument I will let my record as mayor answer for that. I claim that Janesville is a clean city; the Gazette to the contrary, notwithstanding. I am sorry, indeed that I cannot conduct the affairs of the city to the satisfaction of the Gazette, but much as this failure is to be regretted, it seems to be a fact.

As to the editorial in last evening's paper on law enforcement, I have no answer to make further than to say, that there is no gambling and no

other law violations going forward with my consent or with the knowledge or consent of the police. If you call a little friendly game of whist, rummy or smear gambling, then I must admit that such harmless, friendly games do exist. They can be found in every cigar store, club, and in many private homes. In fact, wherever good fellows get together, nobody considers these friendly, harmless games as gambling. It is really a matter too trivial to talk about except for campaign purposes. It is election time now and I don't intend to let any misrepresentation go unchallenged.

I am willing to assume responsibility for any act of my administration, or for errors, if there be any, but I do not propose to let falsehood pass without reply.

I shall see to it that all laws are enforced and will see that any law violator, of whom I have knowledge, will be punished, and further than this, if any person can furnish reliable evidence of any violation, I pledge the citizens to see that such person is prosecuted.

T. E. WELSH.

USEFUL BIRD CITIZENS

Copyright 1920, by The International Syndicate.

BELTED KINGFISHER

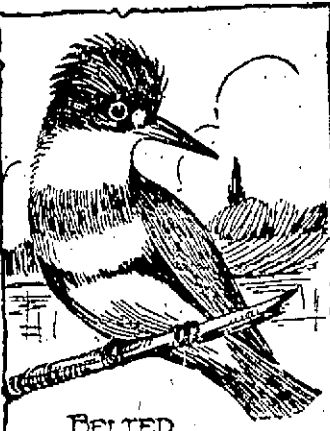

Size—One-fourth larger than the robin above and white below with a most prominent crest. Upperparts, grayish blue. Prominent crest on head. White spot in front of eye. Bill longer than head. Underparts, white with two bluish bands across breast (in female and immature the bands are rufous).

Range—Throughout the country from Central Canada to the Gulf, except where Texas kingfisher takes its place in very limited area in southwest. In winter is irregularly migrant in northern half of breeding range, going just sufficiently far south to reach open water.

There are 150 species of kingfishers, but only one finds its way into the United States. He is the Belted Kingfisher, and he is fairly common the country over. He locates on every pond and stream where fishing is good, and if this feathered disciple of Isaac Walton is not in the neighborhood, the old and experienced fisherman knows that he need expect but little luck in casting his fly.

He has the reputation of being a fish thief, and as such has in the past been a fair target for the guns of all sportsmen, and but for the fact that he is a quick dodger he would have long ago been exterminated. As a matter of fact he catches but few fish that are good to eat, and while no claims have been made that he is much of an aid to the agriculturist, it would be surprising to learn how many field mice, frogs and grasshoppers find their way down his gullet in the course of a season.

The kingfisher rears his family in a little chamber at the end of a long tunnel bored in a bank beside the stream, where he is accustomed to fish. The little kingfishers do not see the light of day until they are ready to take wing, when they creep to the mouth of their underground

BELTED KINGFISHER

home and blinking in the bright sunlight, look out upon the beauties of the outside world. A few lessons in fishing as practiced by their craft and they cannot be distinguished from
